TEACHING PORTFOLIO (2018-2022)
offered by Dr. Koray Gelmez

Industrial Design Studio Courses
Istanbul Technical University
Department of Industrial Design
Undergraduate Programme

un package ables
Packaging design beyond convention

Visions for SMART HOME
A design project based on *"Speculative Everything"*

PACK+
Packaging design with a second use

Money Money Money,
Forming brand-specific design cues

Reusable shopping bag.
DESIGNING WITH A COMPOSITE MATERIAL
in collaboration with
ITU Department of Textile Engineering

A friendly or a gadget-like Pressure car washer and robot home cleaner
~
A design project on home and car cleaning

STRUCTURAL
PACKAGING DESIGN
out of corrugated cardboard

PORTABLE WORKPLACE DESIGN
— *for the street hawkers* —

TOYS WITH STORIES
Design through
Product Metaphor Generation
in collaboration with Ebebek

The post-covid society
as UTOPIA or DYSTOPIA
Designing meaningful interactions
for the new normal

PACK **3x3**
Personal care/Beverage packaging design
inspired through biomimicry

Connected with
Gamification
Designing home experiences through gamification

BUILDING INTERACTIONS
PERSONAL ASSISTANT DESIGN

ON BRAND IDENTITY
Transforming brand-specific cues
into design

Explicitly Seen
Implicitly Hidden
-
A Brand Identity Design Project

The Robot at Home

Designing home-cleaning experiences through product characters

IN TRANSFORMATION
A STRUCTURAL PACKAGING DESIGN PROJECT

Music to my ears
LISTENING EXPERIENCES FOR BOTH DOMESTIC ENVIRONMENTS AND MOBILE USE

Festival
DESIGN PROJECT

in collaboration with
Melikşah Altuntaş
BOOK COVER DESIGN PROJECT
Designing a set of book covers for the improvised fairy tales

Kapaktaki
Keret
on the cover
K
BOOK COVER DESIGN
in collaboration with **Siren Yayınları**

Designing a visual identity for a musician
**WHEN THE MUSIC IS
TURNED OFF...**

**THE POSSIBILITIES OF
TE≡NSION**
Packaging design to boost a superhero ability

**LOGO
EXTENDED**
A Visual Identity Project

EUT 4902E Graduation Project
Istanbul Technical University
Department of Industrial Design
Undergraduate Programme
w/ Academic Staff

DESIGN FOR
DISASTER
how design can contribute
to be better prepared for natural disasters...

ENCOURAGING
Sustainable Behavior
Change
THROUGH DESIGN IN WORK SPACE

COOKING AT HOME:
Smart Kitchen
Appliance Design

Stronger
Together
Designing Units for Co-working Spaces
to Promote Efficiency and Motivation

EUT 241E Computer Aided Design
Istanbul Technical University
Department of Industrial Design
Undergraduate Programme

COMPUTER AIDED
DESIGN

Developing constructively aligned CAD class
with genuine teaching methods that we called
telling-to-peer and writing-to-peer.

EUT 507E Advanced Design Project I
Istanbul Technical University
Department of Industrial Design
Graduate Programme

THE ISSUE OF
CO-DESIGN

Delving into the issue of co-design, which opens a new dimension to conventional designer-user relationship over a design project.

VISIONS FOR
HUMAN-ROBOT INTERACTION
ROBOT AT HOME

Discussing the issue of human-robot interaction in domestic contexts through a research-based design project.

EUT 623E Design Pedagogy
Istanbul Technical University
Department of Industrial Design
Graduate Programme

DESIGN PEDAGOGY

Developing an in-depth understanding and a critical point of view towards design pedagogy. By benefitting from prominent models of student-centered adult learning, this course basically includes an overview of undergraduate design education, foundations of design learning and teaching, curriculum challenges, assessment strategies, and learning in design studio.
